

The Axsys Advantage

From Award-winning Axsys Dental Solutions, the World's Leading Arum Distributor

The Axsys Advantage is the distinct quality and profitability advantage our clients enjoy over their peers by assuring their successful implementation of the latest CAD/CAM technology.

Versamills are Different - Much More than an ARUM

It's true. Our Arum-based Versamill precision dental machining centers are decidedly different than the standard Arum machines delivered by other distributors.

Before they reach your door, each Versamill goes through our own 54-point inspection process and is performance tuned by our team of machine tool experts, a process which includes installation of our exclusive enhancements specifically designed to increase performance, durability and reliability.

The Axsys Advantage

With over 800 man-years experience in digital manufacturing, our extensive experience and knowledge in CAD/CAM software development, sales, marketing, support, training and distribution—along with the same experience and knowledge in CNC machine tool technology, puts us in a unique position in the market—The position of leadership. We can:

QUICKLY ANALYZE & SOLVE MACHINING AND RESTORATION DESIGN PROBLEMS.

EVALUATE MACHINE & CUTTING TOOL TECHNOLOGY TO PROVIDE ONLY THE MOST RELIABLE & HIGHEST PERFORMING MACHINES & TOOLING.

EFFECTIVELY TROUBLESHOOT MACHINE, TOOLING AND SOFTWARE PROBLEMS.

CAD/CAM SOFTWARE DEVELOPMENT & SUPPORT

Imagine the level of support you could receive if your technology partner actually had over 800-man years of experience developing, supporting and training CAD/CAM software & using it in production.

MACHINING AND MANUFACTURING

Imagine the efficiency & robustness of machining templates provided by a supplier that has over 800 man-years of extensive machining & manufacturing experience across many industries.

INFORMATION TECHNOLOGY & SYSTEMS INTEGRATION

What if your solution partner was versed in all layers of all systems within an organization - from the physical hardware to the operating systems, applications, databases, storage, servers and more.

CNC MACHINE SERVICE, PRODUCTION

Imagine having a supplier with a team that could actually service the machines they provided.

Proprietary Enhancements that Make You Money

Axsys Dental Solutions team of digital dental professionals consists of highly experienced machine tool engineering, machine tool maintenance, machinists, software development, software support and training specialists.

Nearly 15 years ago we were the first to introduce Arum Dental Milling Machines to the North and South American markets.

It is this unrivaled experience and dedicated resource that has enabled us to identify key areas of Arum machine design that we could adopt in our Versamill products that save you thousands of dollars annually in terms of production up-time, machine cycle time (50-70% less time than nearest competitor), reduced bench-time, eliminated re-work, and more.

Award-Winning Support

We are well-known and recognized for providing extended support hours and the best customer service in the industry. Here's why:

60%-70%

CALLS RESOLVED UPON FIRST CALL ATTEMPT

20%-30%

CALLS RESOLVED WITHIN ONE HOUR OF ORIGINAL CALL

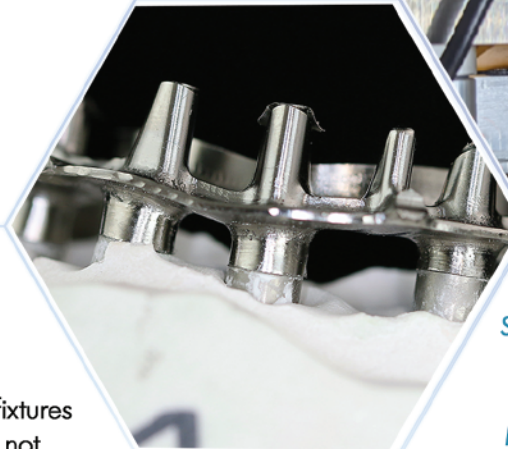

10%-20%

CALLS RESOLVED GREATER THAN ONE HOUR OF ORIGINAL CALL

0%-10%

CALLS RESOLVED 24 HOURS OR GREATER FROM ORIGINAL CALL

VERSAMILL 5X400 SPINDLE & POWER-SUPPLY REDESIGNED & REPLACED WITH A HIGHER TORQUE SPINDLE DRIVE, A REQUIREMENT FOR EFFECTIVE LONG-TERM FABRICATION OF CERAMIC-GLASS RESTORATIONS. THIS SPINDLE IS NOT AVAILABLE WITH ARUM 5X-400 MACHINES.

UNMATCHED RESTORATION QUALITY IN A FRACTION OF THE TIME.

WE REPLACE THE STANDARD ARUM PROBE WITH THE VERSAMILL HIGH-SPEED PROBE AND AUTOMATED PROBING ROUTINES, SAVING TENS OF THOUSANDS OF DOLLARS BY TAKING PROBING ROUTINES FROM HOURS TO JUST SECONDS.

Widest Variety of PreMill Fixtures

We provide the most comprehensive list of PreMILL fixtures available for our Versamills. Fixtures that are simply not available for standard Arum machines. These include: Ivoclar, NT-Trading, DESS, Medentika, Straumann, DentSwis, OpenImplant, C-Clamp, and more.
